*Eastrend*. . . an exciting new collection by Drexel, adds a dazzling new dimension to contemporary styling and decorating. Inspired by the wealth of timeless design motifs drawn from the East, designers Henry and David Warren have captured a feeling of warmth and livability . . . an atmosphere of tradition, of continuity with the past. It is the rhythmic repetition and symmetry of these Eastern design motifs which make them so adaptable to the modern idiom. You'll like the imaginative and subtle contrast of shapes and textures and the smooth simplicity of line, which are characteristic

of Eastrend. Exotic accents of Carpathian elm burl spiced with the beauty of natural cane enhance the deep-down, glowing sheen of the walnut veneers and solid pecan. The timeless character and versatile styling of this correlated collection for living, dining and bedrooms make it surprisingly compatible with almost any interior, whether casual or formal. In Eastrend, you'll discover a deep, satisfying beauty . . . a quiet dignity and warmth of character that is readily adaptable to your changing moods and pleasures. Make it yours today!

# RETURN TO DESIGN DIV.

Here is contemporary as you've never seen it before! Delving into the fascinations of Eastern design motifs, the talented design team of Henry and David Warren conceived the most exciting design idea in years . . . Eastrend! This is the look, the mood of today . . . answering the increasing demand for modern furniture of greater substance and detail.

Eastrend has a superb sense of order and balance, precision and craftsmanship . . . and a richness of decoration. One sees a sophisticated fusion of contrasting textures, intriguing silhouettes, unusual woods and a subtle variation of jewel-like hardware . . . all pointed toward flattering our own Western way of living. Unmistakably Drexel . . . Eastrend reflects a proud tradition of quality and craftsmanship . . . Drexel's mastery in the art of producing fine furniture at realistic prices.
